PRICE 5 CENTS

SIX-YEAR-OLD SHOWS EXPERTS HOW

ENVY OF OUTDOOR SPORTSMEN in Charleston, South Carolina, is six-year-old David S. Newsome, here posing with two channel bass he caught last week. One is 28 pounds, the other 15. Two weeks ago David shot down a 160-pound buck deer with a single shot.

## Ailing, Old Man Survives High Level Bridge Jump

### AND IT COST HIM \$1.95 FOR POSTAGE

PHILADELPHIA, Oct. 28.—(AP)—Here's a modern version of the John Alden-Miles Standish story.

At a recent meeting of the Direct Mail Advertising Association, a speaker said a young friend of his decided to court his girl by letter.

He sent her a proposal every day for 65 days.

On the 66th day, the girl married the mailman.

## Surveys Complete For \$3 Million Army Depot

Several areas in the northern section of the city and others just outside the city's northern boundaries have been surveyed as possible sites for a \$3,000,000 ordnance depot to be erected here by the Department of National Defence.

Announcement of the completion of the surveys was made yesterday by B. B. Campbell, assistant deputy minister of the department, following conferences with municipal and provincial government authorities.

## SITES SUBMITTED

Various locations will be submitted to Ottawa defence authorities for final selection. Col. Campbell stated.

Previously, army authorities endeavored to purchase Westmount Park as site for the depot, but town planners recommended the site should be located in either less heavily populated section of the city.

Approximately 150 acres of land will be required as site for the depot, which will be comparable to that at Longue Pointe, Que., Canada.

## 20-YEAR PROPECT

The project will take about 20 years to complete, and will be managed by 1,500 enlisted personnel and many civilian workers. The cost is estimated at \$2,500,000 annually.

Depot will include administrative areas, headquarters, warehouses, workshops, married and single quarters.

Total of 600 accommodation units will be provided for married personnel, who will make up majority of those stationed here.

## 40-POUND STURGEON

## Easterner Lassos Fish And Has Proof in Tub

MONTREAL, Oct. 28.—(CP)—When Ernest Tanguay tells a story of catching a fish by lasso, he likes to add a few details. That's how he came to have a live 40-pound sturgeon in the bathtub of his east-end apartment.

Tanguay, a 33-year-old truck driver, told the story to a group of friends, a newspaper reporter and a television camera crew the night after he brought home the fish that he named "Chou-Chou"—a typical French-Canadian pet name.

And for any doubters there was "Chou-Chou" swishing his tail in the tub.

The sturgeon died this morning, but that's the story that Tanguay had to tell.

While repairing his truck Wednesday near St. Rose, 20 miles from the River Fisher. The body was recovered a few hours later.

The boy was about 150 yards north of where the mishap occurred. Hodgson is about 90 miles north of Winnipeg.

Ernest Tanguay, a 33-year-old truck driver, told the story to a group of friends, a newspaper reporter and a television camera crew the night after he brought home the fish that he named "Chou-Chou"—a typical French-Canadian pet name.

## 48 Persons Aboard Plane Killed in Crash in Azores

### \$3 Millions Paid For Oil Rights

#### \$918,662 Paid For Quarter Is Highest Bid in History

Sale of oil rights, principally in the Redwater oilfield, yesterday netted the Alberta government \$3,131,592.

Highest price on record for a single quarter-section was \$918,662.67, paid by Tanner and Co. of Calgary, for the southeast quarter of section 15-58-23w4 which lies four miles northeast of the quarter for which British American paid \$902,800 in a sale last April.

Tanner and Co. also purchased the quarter section immediately to the west for \$677,871.37.

Highest bid was accepted by E. H. and C. R. Tanner on behalf of a syndicate composed of themselves and other oilmen. The total capital is reported to be behind the project and land will be managed by a major oil company with full ownership remaining in the syndicate.

## NEAR EIGHT WELLS

Purchases lie immediately north of the well for \$677,871.37.

Other bids were accepted by E. H. and C. R. Tanner on behalf of a syndicate composed of themselves and other oilmen. The total capital is reported to be behind the project and land will be managed by a major oil company with full ownership remaining in the syndicate.

## FOUR-STATE HUNT SEEKS

## 6 CONVICTS

WILMINGTON, Del., Oct. 28.—(UPI)—Authorities spurred a four-state air-ground manhunt today for six jail-breaking convicts armed and dangerous who had escaped and led by a Gulf-faced killer.

Police were warned that the six fugitives from the state's largest prison were almost sure to put up sharp resistance when captured.

Police said the six fugitives, who were captured last night after a wild 85-mile-an-hour chase across the Maryland-North Carolina border, were

the captured convicts, John H. Miner, 23, a life-term slayer, and Jesse W. Palmer, an armed holdup man, plus two negroes who had joined the jail-breaking group, gave up after North East.

## STOLE AUTOMOBILE

The two negroes stole a parked automobile at an abandoned gas station on the Pennsylvania-Delaware state line and headed south, straight through the woods, when the search for them was concentrated.

State police said the two believed they could find safety in the top deck of the bridge, 15 feet above the water, and 100 feet from the shore.

State police said the two believed they could find safety in the top deck of the bridge, 15 feet above the water, and 100 feet from the shore.

Police said the two negroes, who were stung by the suddenness of the elderly man's actions.

Officer of the car, Fred Prunkl, 1226, who didn't know what had happened until told by one of the passengers.

LOOKED FOR MAN

"He has just gone a few feet past where he was jumping off the car," said the policeman. "I heard the emergency brakes, got out and went to the east ledge of the bridge. I couldn't see anything in the water."

Prunkl then went to the other ledge but couldn't see anything below. "It didn't occur to me that he might have been thrown to the bridge below by the wires," said Mr. Prunkl.

None of the rear passengers, including friends, escaped the conductor because of noise made with the handbrake.

## MILD SPELL TO CONTINUE

MILWAUKEE Air which has been bringing Edmonton warmer than normal temperatures will continue today, first from the southwest, then from the northwest. The temperature will be high for the day is 55 above.

The shift to the northwest is expected to bring not quite so much cold air to the city, but the reading is still expected to be 15 or more degrees above the normal of 45 above for the season of the year.

Very light rain is falling in the northern part of the city, but the rain will end in the afternoon.

Very light rain is falling in the northern part of the city, but the rain will end in the afternoon.

Very light rain is falling in the northern part of the city, but the rain will end in the afternoon.

Russell was instantly killed and two others were severely injured when a truck driven by Colongard, 123 street, was hit by a car on the bridge.

Injured were Arnold Douague, 1233—123 street, and Colongard.

RECENTLY RELEASED

Douague was only recently released from the hospital in hospital, having suffered a fractured and dislocated hip and lacerations.

Dr. S. Hanson, pathologist at General hospital, told court he had performed an autopsy on Russell.

RCMP TESTIMONY

RCMP sergeant Charles Muir told court he had witnessed scene of the accident before the truck had been taken from the bridge.

"From the damage done, the truck must have been going at a high rate of speed for entering a bridge," said Mr. Muir.

Colongard when asked by Magistrate J. McCullum he had

nothing to say before decision was given.

Bill was set at \$5,000.

And for any doubters there was "Chou-Chou" swishing his tail in the tub.

## It Happened TODAY

### Commonwealth

The Canadian dollar and the British pound have been the subject of a joint American-Canadian committee composed of office padding and taking "kickbacks" from employees.

### United Nations

It was of "never the twin shall meet" as East blamed West and West blamed East in United Nations debate on conflicts between Greece and Turkey. Bulgaria, Russia and her satellites say Greece is a traitor. Most of the nations present in the United Nations committee put the finger on Communists in Bulgaria.

### Nation

"If we don't import, we can't export," Finance Minister Abbott told Canadian Importers and Traders Association. Abbott said Canada's interest to Canadian prosperity, and it is in Canada's interest to buy more from Europe and less from the U.S. He left it up to the importers—in their day to day decisions—to help determine Canada's future.

GRAHAM TOWERS  
backs the buck.

### Labor

Harry Bridges, boss of 65,000 west coast longshoremen, says his union won't leave the CIO unless "we're booted out." Leader of the left-wing organization, which has been in the West week's CIO annual convention will be "rough as hell."

Argentina is having a tough time with its labor unions. Following on the heels of a 90,000-strong revolt by the powerful Sugar Workers Federation, 11,000 miners have now defied a labor ministry order to return to work. The flour workers say they have had to take retroactive wage increases or be laid off. The sad result: Argentina is fast running out of bread and spaghetti.

### The U.S.

The late President Theodore Roosevelt was last night hailed as "the man who saved free enterprise for America." Doing the styling was Gen. Lucius C. Fairchild, former minister of occupied Germany, Roosevelt Memorial Association also heard FBI director J. Edgar Hoover declare that the T.R. as "a pioneer in law enforcement."

### International

Guttmann has suspended constitutional rights with the discovery of a revolutionary plot against President Juan Jose Peron. A number of persons have been arrested in connection with the alleged plot.

### Manners & Morals

U.S. Rep. J. Parnell Thomas must stand trial Nov. 7 on charges of defrauding his government. Further postponement of the trial was refused when private physicians claimed

## Canada Dares Soviet To Bare Labor Secret

By Norman Alstedter

LAKE SUCCESS, N.Y., Oct. 25—(CP)—Sydney Parks of Canada has gone to the United Nations assembly to give the world detailed information about the Communist economic system before offering advice on how to run free enterprise.

Canada's associate deputy minister of trade and commerce said in a 50-minute economic report to the United Nations assembly that Canadian delegates have proclaimed the free enterprise system is doomed and will do what they can to make their prophecy come true.

He lashed at a Czech resolution calling on members of the economic commission to "suffering from employment" adoption of a series of drastic legislative measures ranging from tax reform to arms reduction.

### "DO YOU PAY WORKERS?"

Pierce noted that Communist countries have reported to the United Nations they have no unemployment.

"We should like to know more about just how everyone in Soviet (Eastern European) countries works, at what rate, and how much he gets for his labor," Pierce said.

He supported an Australian proposal which recommends that all governments take action to promote and maintain full employment and call for a review of the world economic situation at the next assembly.

Canada has submitted to the United Nations detailed accounts regarding its economic structure and unemployment, Pierce said.

## Anti-Budget Vote Worry for Attlee

### Dissidents in Party and Liberals Join Tories on Censure Motion

By Norman Cribbons

LONDON, Oct. 28—(CP)—Mindful of the largest vote yet mustered against it in the House of Commons, Britain's Labor government today pushed ahead with its economy program. And there were indications that further cuts can be made by Prime Minister Attlee were in

the offing, parliamentary debate on the government's belt-tightening program reached its climax last night with Labor defeating a Conservative motion to condemn the cabinet's economy plan as inadequate. The vote was 333 to 222.

The Labor total was 40 short of the party's 371, and Labor members of parliament were absent due to illness. A few were abroad. Some present were out to show up for the important vote.

**ELECTION LINES DRAWN**

Some later opinion has shared the opposition view that Prime Minister Attlee took only half measures when he ordered an eight-point cut in the country's spending plan.

Backed by Liberals, Nationalists and most of the 14 Independents, the Conservatives rallied to a 333-222 victory, but the vote was cast against the Attlee regime, the result, nevertheless, was a go-ahead for the program.

The London press noted generally favorable reactions to the vote. The Times parliamentary correspondent, however, said the Conservative victory, after last month's development, a strong electioneering atmosphere and appeal to the country to be even more firm and drawn.

A general election is due sometime before next July, when the Labor government's term of office expires.

## Lions Club Is Planned

Members of the newly-formed Lions Club in West Jasper Place are looking forward to their Charter Night to be held on Dec. 1. The club will be organized on Dec. 1.

Plans are being made to have a meeting of the club on the second Monday of each month in Hesp's Dine and Dance Cafe, starting at 6:30 p.m.

Officers of the new club are James H. Stone, veteran leader of the local Lions club, and Mr. and Mrs. W. Spencer, who will control the evening newspaper last week. The purchase price was not disclosed.

Mr. Bell is president of a holding company which will control the new club, and will be its first president.

Individual members of the club have expressed the hope one of the first projects undertaken by the club will be to assist in making the auditorium sought by other community organizations a reality.

Programs for the group has yet to be determined, but it is planned that the club has not yet been completed the initial steps of organization.

### 'Red Tape' Talks

OTTAWA, Oct. 28—(CP)—Talks towards cutting United States customs "red tape" are expected to be opened here today between Canada and the U.S. It was disclosed last night that Canada will be represented by trade officials in the Canadian embassy at Washington.

### HARRY BRIDGES

\*\* tough as hell.

### Crime

Mohandas Gandhi's murderers will hang Nov. 15. Convicted of the January 1948 killing of the Indian leader are five other convicted conspirators who were sentenced to life imprisonment.

### Agriculture

Farmers in Europe and Asia fear for their livelihood should the U.S. and other big countries impose a ban on exports to the world market. The Royal Netherlands Agricultural Committee was told at its annual meeting.

### International

Guttmann has suspended constitutional rights with the discovery of a revolutionary plot against President Juan Jose Peron. A number of persons have been arrested in connection with the alleged plot.

### Manners & Morals

U.S. Rep. J. Parnell Thomas must stand trial Nov. 7 on charges of defrauding his government. Further postponement of the trial was refused when private physicians claimed

Programs for the group has yet to be determined, but it is planned that the club has not yet been completed the initial steps of organization.

'Red Tape' Talks

OTTAWA, Oct. 28—(CP)—Talks towards cutting United States customs "red tape" are expected to be opened here today between Canada and the U.S. It was disclosed last night that Canada will be represented by trade officials in the Canadian embassy at Washington.

Mr. Bell is president of a holding company which will control the new club, and will be its first president.

Individual members of the club have expressed the hope one of the first projects undertaken by the club will be to assist in making the auditorium sought by other community organizations a reality.

Programs for the group has yet to be determined, but it is planned that the club has not yet been completed the initial steps of organization.

OTTAWA,

**AIR CADET MOVEMENT** now has reached national total membership of 15,000 youths from 14 to 18 years of age. High officials of the RCAF and Air Cadet League of Canada conferred here yesterday at league's provincial annual meeting. Seated from left are: D. Alex Ross, Vancouver, league president; Air Vice-Marshall K. M. Guthrie, RCAF; Commodore H. M. Carscadden, acting air officer commanding North-West Air Command; Air Marshal Robert S. Leckie, Ottawa, former chief of air staff, and adviser to the league. Standing is Eric M. Duggan, league's provincial chairman. See story Page 17.

## Higher Stipends Forecast For Presbyterian Clergymen

Higher stipends for Presbyterian church ministers in Alberta is promised as a result of decisions at the 44th annual meeting of the Presbyterian Synod of Alberta here. The meeting adjourned Saturday night. Strathecona Presbyterian Church here closed last night.

Calgary's First Presbyterian Church here closed last night. Calgary film budget and stewardship committee report announced increases in ministerial stipends.

Basic stipend of \$1,800 annually remains unchanged, but ministers will be granted special allowances of \$200 if they have a \$3000 car is indispensable, \$100 for each child, \$100 if in same charge for each child, \$100 if in charge for each five years of ministerial duty within the synod.

Other decisions approved at the meeting included inauguration of a "white gift" service to help ministers go to needy Indian tribes in Alberta and nomination of a member of the synod to the Canadian provincial movie censorship board.

Rev. D. L. Crocker, Red Deer, was elected to the synod. Rev. A. G. Campbell of Edmonton was named treasurer, and commissioners were: Rev. R. A. Sinclair, Innisfail; Mr. Crawford, Rev. W. Lawson, Mr. Crocker, Rev. G. Hazlett, Edmonton; Rev. G. C. Campbell, Edmonton; Rev. M. S. Blackburn, Banff; and Rev. W. H. Bell, Red Deer. Clerk of the Presbytery is E. Wells of Edmonton.

**FORTUNE OR FAKE** wonders George Myall, Hull Block, as he fingers family heirloom violin. Treasured since 1913 only as memento of his father, instrument may be worth small fortune, he believes, after reading report that violin with same inscription sold in France recently for \$10,000. Inscribed "Jacques Stainer in Bassano prope Cremonam" violin bears 1665 date.

## Engineering Pride Topic of Address

Technical knowledge isn't everything in the field of engineering. Professional consciousness is more important.

This was the message made by Institute President John E. Armstrong, chief engineer with the C.P.R. last night, as he addressed 1,000 members of the Engineering Institute.

Occasion was the Edmonton organization's annual banquet held in the Hotel Alberta.

In a speech dealing with the aims and achievements of the Institute, President Armstrong said:

"This is the attitude the Institute seeks to foster."

Others said the Institute is to see Canadian rather than foreign engineers employed whenever possible in this country.

**LESS LEAVING** "Only in a very few cases," said the president, "is a suitable Canadian talent available."

As a result of the Institute's efforts to find employment here for young engineers, fewer are going to the States than was the case formerly.

Banquet was sponsored by the Edmonton branch of the Engineering Institute and the Military Institute of Canada.

Chairman was Edmonton branch President T. W. Dalkin.

**Alberta College** **Alts Blood Clinic**

Students of Alberta College added weight to Canadian Red Cross blood donor clinic last night, 98 of them giving blood. This is the 10th campaign conducted by the school students' council.

Other visitors to the clinic represented the members of the College Vocational Training School. Last week, members of 418 Squadron, RCAF, with their wives and friends gave strong support to a clinic conducted in the officers' lounge.

## I Spy... By the Staff

### Due HERE SOON

E. L. Tweete, district traffic manager for Scandinavian Air Lines System, will be making a western visit from New York in the near future. It was learned here today. Mr. Tweete will be visiting Edmonton and Grande Prairie among other northern Alberta points during his trip.

### SURVEY CITY

Surveyors will make potential surveying of development in Edmonton district, two executive officers of Graver Tank and Manufacturing Co. Inc., East Chicago, will be here this week. One is J. E. Swanson, executive vice-president, and C. L. Marler, vice-president in charge of sales.

### SHADES OF WINTER

Last fine planes of Associated Plytone will be new at the company's hangar under flying conditions. Directed by Kaufman, the crew got the planes "just in time" as ice conditions at Yellowknife and district are making it increasingly difficult to find open bodies of water for pontoon landings.

### UN Meeting

Report on his recent visit to Germany will be made by L. D. Hyndman, K.C., at a meeting of the branch of the United Nations Society to be held in the MacLennan Hall lecture hall Sunday at 8:30 p.m.

## PILES

You can't expect relief from piles unless you remove the basic cause which is a lack of tone in the rectal muscle. TREATMENT: A liquid taken orally, which acts as a laxative, and especially for their ability to heal and tone the rectal muscle. Hundreds of satisfied PILOTONE users are now free of piles. You can buy the bottle or the price-refunded immediately. PILOTONE \$1.15 as an enema.

## Alberta Resources Take Spotlight

### Metallurgist Sees Province As Balance of Trade Here

Biggest spot in the Dominion's mining industry is the expanding reserves of crude oil and natural gas in western Canada, according to F. V. Seibert, Vining, president of The Canadian Institute of Mining and Metallurgy.

He is in Edmonton to attend a meeting of the Nor'West Alberta branch of the institute at the Macdonald hotel this evening.

Accompanying Mr. Seibert is Carlyle Grover of Monreal, secretary of the organization. They are here to attend the 10th annual meeting of the Northern Alberta branch of the institute.

Resource development in western Canada gives promise of balancing trade to dollar areas, especially insofar as the U.S. is concerned, according to Mr. Seibert.

### EXPORTS FALL 50 PER CENT

Last year exports from Canada to United States fell short of purchases in that country by \$300,000.

During that year Canada imported \$10,000,000 in crude oil, and \$10,000,000 worth of oil products which were paid for in American dollars.

Mineral industry comes second in Canada's export of commodities to United States, and each year is increasing our supply of American oil.

Western Canada oil output has placed the mining industry in first place in solution of the nation's oil problems, Mr. Seibert stated.

Mineral products in the past 25 years has increased from \$24,000,000 to \$80,000,000.

### ACTIVITY SPREADS

Mining activity has spread over large areas of Canada and into areas which have been unproductive, and areas of new metal producing areas is becoming more and more difficult, Mr. Seibert stated.

In addition to remarkable increases in mineral production, many new minerals have been added to production lists.

Natural gas production has increased almost five-fold in quantity and about three-fold in value in recent years and the increase with still greater production indicated for the future, he said.

In addition to Great Britain, traffic moves on the left side of the road in Sweden, Ireland and India.

Canada's rivers bears a perennial supply of water from the melting snows of the Himalaya mountains.

Convenient and commodious bags for down-town shopping or knitting circles. Made from melton tapestry, plain moire in black, wine, brown, navy and black — also striped silks. Plainly lined. Plastic or wood boards. Priced at \$3.50 to \$3.95

## Importance Stressed Of Western Market

MONTREAL, Oct. 28.—(CP)—The Canadian Chamber of Commerce yesterday wound up its annual meeting here with a discussion of trade, and heard an invitation from Saskatoon to meet there next year.

Edmonton also came up with an invitation to meet somewhere in Alberta. A decision will be made later.

J. E. Browne of Winnipeg, presenting agriculture's point of view to the meeting, forecast that failure to see that exports of Canadian produce are continued, would quickly be followed in an adverse way by Canadian imports.

He pointed to the vast markets for manufactured goods on the Prairies, and the need to develop them. In the last 11 years, he stated, western Canadian farmers have spent \$400,000,000 on farm machinery alone, and must surely receive more careful study than it has in the past.

He added that if Britain had not been compelled to sell her admiralty to defend world freedom, there would be no exchange problem on the scale existing today.

### Grain Exhibits Fine Quality

EDMONTON, Oct. 28.—E. Patching of the Alberta Wheat Pool, and Leslie Utter, assistant supervisor, the Juniper Club, A.C.A. Unit for Alberta, were pleased with samples displayed here in the recent 15th Annual Junior Grain Show.

The pair acted as judges for the show and said the samples were of high quality and showed that club members had spared no effort in the work of preparation.

### Wife Fails To Get Share Of \$62,000

EDMONTON, Oct. 28.—Mrs. David Calder who recently celebrated their golden wedding anniversary, were guests of honor at a party held in Portage Hill attended by nearly 1,000 people.

Mr. and Mrs. Calder were married at Whalbur, Scotland, Oct. 10, 1889 and have been in Canada since 1900. They have a large home which they have resided in since 1926.

They have three children, Dr. James Calder, Edmonton, Mrs. D. Lovell, and Mrs. and Mrs. R. Scott, Winterburn.

Alex Muir acted as master of ceremonies. E. H. Tucker proposed the toast to the bride and groom. Mr. Cliffe toasted Mr. and Mrs. Calder.

Chris. Pattison made a presentation.

The 46 candidates in opposition are: CCF 25, Independent Liberal 5, Independent Progressive Conservative 4, Independent 2, Progressive Liberal 2, Progressive Conservative 2, Labor-Progressive 2, Progressive CCF 1, Northern Independent 1, Social Credit 1, Liberal 1.

The 36 supporters of the Coalition are: CCF 23, Independent Liberal 5, Independent Progressive Conservative 4, Independent 2, Progressive Liberal 2, Progressive Conservative 2, Labor-Progressive 2, Progressive CCF 1, Northern Independent 1, Social Credit 1, Liberal 1.

Manitoba's next legislature—the province's 23rd—will have 57 members, increase of two, brought about by the recent federal and provincial election. Sept. 29, the Coalition had 36 supporters, the Opposition 16, and three seats were vacant.

## Manitoba Opposition Falls Apart

WINNIPEG, Oct. 28.—(CP)—The Manitoba government gave a nomination-day bonus of 18 free seats yesterday and the opposition spokesman conceded Premier Douglas Campbell's coalition will be returned to office in the Nov. 10 general election.

"We haven't any alternative but to agree that they will be returned," said A. H. Axford, leader of the CCF, official opposition in the last legislature.

The premier, sixth of his cabinet and seven other coalition members, returned to office in the election. The coalition parties also were sure of four more seats in ridings where there will be a vacancy.

The Progressive Conservative party, which Mr. Campbell heads, got 11 of the acclamations and the Progressive Conservatives three.

Winnipeg, which has 11 non-member constituencies, will provide the coalition with another seat since only three opposition candidates survived yesterday. In addition, the one seat held in Killarney, Lansdowne and Hamiota involve only candidates supporting coalition.

### RECORD FOR MANITOBA

Political observers said the 18 seats seen on nomination day constitute a record for Manitoba. However, the 1944 general election produced 20 seats, and 19 acclamations. Sixteen members were returned without opposition. There were several acclamations in the last general election in 1945.

The 14 coalition members returned by acclamation, and their constituencies are:

### LIBERAL-PROGRESSIVE

First—Agriculture Minister F. C. Bell—Edmonton.

Deloraine—Glenwood — J. O. Argue.

Fairford—J. F. Anderson.

Grinnell—O. Thompson.

Grosvenor—Utilities Minister W. M. Morton.

Lakehead—Premier Douglas L. Campbell.

Minnedosa—H. S. Runyan.

Mountain—Health Minister Ivan Schreyer.

St. George—Christian Haldorson.

St. Rose — D. M. MacCarthy (CAM C.)

Virgen—R. H. Mooney.

### PROGRESSIVE CONSERVATIVE

Portage la Prairie—Labor Minister C. E. Greenlay.

Provinicial Secretary W. C. Miller.

Turtle Mountain—Works Minister Erick Willis.

### 42 CANDIDATES NOV. 10

Independent candidates were filed by 112 candidates with 88 on the coalition side, including the acclamations. Liberal-Progressive 2, Progressive Liberal 2, Progressive Conservative 2, Labor-Progressive 2, Progressive CCF 1, Northern Independent 1, Social Credit 1, Liberal 1.

The 46 candidates in opposition are: CCF 25, Independent Liberal 5, Independent Progressive Conservative 4, Independent 2, Progressive Liberal 2, Progressive Conservative 2, Labor-Progressive 2, Progressive CCF 1, Northern Independent 1, Social Credit 1, Liberal 1.

The 36 supporters of the Coalition are: CCF 23, Independent Liberal 5, Independent Progressive Conservative 4, Independent 2, Progressive Liberal 2, Progressive Conservative 2, Labor-Progressive 2, Progressive CCF 1, Northern Independent 1, Social Credit 1, Liberal 1.

Manitoba's next legislature—the province's 23rd—will have 57 members, increase of two, brought about by the recent federal and provincial election. Sept. 29, the Coalition had 36 supporters, the Opposition 16, and three seats were vacant.

He said he is not against hydroelectric development but it should be carried out in rivers and lakes that do not interfere with fishing.

Senator Reid is a member of the international salmon fisheries commission.

The senator said there is now a market for some potash sites for a plant in B.C., and is negotiating with the provincial government for water rights.

"All the negotiations have been done in secret," said Senator Reid, "but I am sure that the public is not being acquainted with the true facts."

Any power developed, said Senator Reid, should be kept for home industries.

He demanded a public hearing where all plans of the company would be laid open "so the widest possible publicity."

Senator Reid said the company has a 40 per cent ownership interest in the state of Washington and that surplus power from B.C. could go to the northwest power pool.

AFTER CONFERRING with President Truman in Washington, Defense Secretary Louis Johnson (right) and Navy Secretary Francis Matthews talk to reporters. Johnson wouldn't comment on reports of shake-up in Navy high command, but admitted he and Matthews conferred with President about inter-service unification battle.

## Hot Jazz Takes Chill From the Cold Wars

NEW YORK, Oct. 28.—(AP)—The "Voice of America" got a jubilant accent two months ago—and they're editing it out of the far away places.

Sometimes the "voice" is Bing Crosby. Sometimes it's Frank Sinatra. And sometimes it's heartbroken Dizzy Gillespie.

Because baby, even if it's a cold war, outside you still tell 'em we're here, we're Alice-Morza.

### COWHARDKIS YET

Which proves that what's good for East St. Louis will work in the West, and what's good for cowhands along the Rio Grande.

Anyway, the United States Information Broadcast Service has been pumping out American popular music as an experiment.

Rocky Martin, Block has hit the international jazz circuit.

At least his fan mail would drive a stamp collector nuts.

The leg of a 980,000, 1,100-mile leg of a pipe line designed to carry Alberta oil to Eastern Canadian markets will be opened to traffic from May to Superior, Wis., at a cost of \$22,500,000 and will employ 400-500 men in construction. Imperial Oil officials

say the pipe line will be built in the popular field in a big way this month ago, and Block volunteered his services. A weekly half-hour program will be broadcast to the Far East, and Latin America. It's called "International Make-Be-Plenty Chatter."

Block runs his program in strict disk jockey style, with lots of gags and a lot of fun, but no music, and no commercials—this is strictly a sustaining program.

Before long Block was getting more fan mail than any other "voice" program—and some of the writers were real gone guys and gals.

### HOME BUILDERS!

ON THIS  
SPECIAL

# CLEARANCE

OF ALL  
HOME LIGHTING  
FIXTURES!

To make way for new merchandise stocks, we are clearing out at sensational reduced prices all our home lighting fixture lines.

Prices have been slashed for this special clearance and you are urged to shop early Saturday as many of these fixtures are just one-of-a-kind.

### SPECIAL on demonstrator models

### FLOOR-O-MATIC and

### ROYAL POLISHERS

### OUTSIDE FIXTURES

Values from 2.95 each to \$24.00 pair  
CLEARING FROM

\$1.95 each to \$18.50

### INSIDE FIXTURES

Bedroom, Kitchen and Living Room Fixtures  
Values from \$3.95 to \$30.00  
CLEARING FROM

\$2.65 UP

## Ovation to P.M. Heralds Adult Act

Commons Approves 3 1/2-1, Bill To Enable Ottawa Amend BNA Act

By D'Arcy O'Donnell

OTTAWA, Oct. 28.—(CP)—In a historic move, the Commons yesterday adopted a resolution seeking for parliament to postpone and amend the constitution on matters under federal jurisdiction.

By a vote of 133 to 38, members approved an address to the United Kingdom parliament which will now have to make amendments to the Canadian constitution.

A similar resolution must be passed by the Senate before the legislation can be sent to the United Kingdom parliament.

Progressive Conservative and Social Credit members tried to have passage of the resolution delayed to permit consultation with the provinces.

Dr. C. G. Raymond Brusseau (Ind.) of Prescott voted with the government.

### ST. LAURENT OVATION

The vote was taken after Prime Minister St. Laurent defended the government's position in a speech that brought him one of the lengthiest ovations he has received this session. Applause

came from all sides, and weight rapidly after severe shocks or worry.

The doctors said they were treating these patients for "constitutional disabilities" and not to eat their weight. They added they could not be sure of the subject needs further study.

He said that he believed a majority of the Canadian people supported the government's proposal for parliament the power to amend the constitution. Everyone

was in the hands of Canadians, but opposition members were saying that there should be prior consultation with the provinces.

The Liberal party did not subscribe to the demands on constitutional changes involving federal jurisdiction.

Progressive Conservative spokesmen agreed that Canada should have the power to amend the constitution, but they held that the federal

members to men to control provincial legislatures.

The leg part of a \$90,000, 360-mile leg of a pipe line designed to carry Alberta oil to Eastern Canadian markets will be opened to traffic at least \$10,000,000 more

to \$12,000,000 annually to operate the line if it went through the western country leading to a Canadian Great Lakes port, officials said.

OTTAWA, Oct. 28.—(CP)—Proof of Canada's economic boom is in the spectacular increase in Canada's savings bank sales, says Don Geddes, the Bank of Canada's deputy-governor.

Pleasantly surprised by the banks' popularity, the banking and economic experts are taking on the job of persuading the Canadian National Railway to build a new station in 1950, was first place at the 1948 United Nations Eisteddfod in Scranton, Pa., officials said.

The campaign, which opened Oct. 28, 1948, at \$55,543,850—more than double the \$30,688,800 in the first week of the 1948 campaign.

Postage rates will be raised to \$7.668,950 through the payroll instalments plan in the first week last year.

Bankers believe that if the current trend continues, Canada's worth of bonds sold last year by an additional \$40,000,000.

## Bidault Forms New Coalition French Gov't

By Joseph W. Grigg  
United Press Correspondent

PARIS, Oct. 26 (UPI)—Premier Georges Bidault formed a new middle-of-the-road coalition cabinet early today, ending a 23-day-old crisis caused by devaluation of the British pound.

Bidault, president of the Popular Republican Party, and his new cabinet of 17 veteran coalition ministers two hours after winning a smashing 367 to 185 vote of confidence in the National Assembly.

Only the Communists and their fellow travelers voted against the new cabinet. The Radical and De Gaulle parties abstained. Voting for Bidault were the Socialists, radical Socialists, and the smaller parties plus about 10 independents.

The new cabinet differed little from that of former Premier Henri Queuille, which resigned Oct. 6 in the midst of a cabinet quarrel over prices and wages.

### BLAMES DEVALUATION

When he appeared before the assembly last night Bidault indicated that the pound sterling for the French internal crisis that prevented formation of a new government.

Bidault outlined a government wage-price policy almost identical with that offered by Socialists Jules Moch and radical Socialist René Maheu, who had been invited to advise him to form a government.

Bidault pledged his government to:

1. Restore open wage bargaining between labor unions and employers prohibited since 1936.

2. Form a national bank of food and other essential household items by means of subsidies and other measures.

3. Pay an interim bonus of \$8.50 to low-wage workers to increase their earnings to a minimum of \$42 monthly.

### Liquor Squad Checks Football And Hockey Fans

CALGARY, Oct. 26 (CP)—Chief Constable S. E. Mathews said eight members of the liquor squad will attend the balance of the football games and also hockey matches in the city to curb violations of the liquor laws.

He said complaints had been received in Edmonton by the attorney general that the liquor squad was excessive in their drinking at football and hockey games in Calgary. No complaints had been directed to police here.

### ASSAULT CHARGED

## Court Orders Calgary To Identify Jailer

CALGARY, Oct. 26 (CP)—The mystery of the assistant jailer in the city police jail cells last Dec. 12 now has solved, the court said. The Appeal Court of Alberta yesterday ruled that the city should have to disclose the city's name.

Kenneth G. Kelle of Calgary several months ago entered a \$4,654 damages suit against Constable Macay, city jailer, the city of Calgary, and Macay's assistant for \$4,654 damages. Kelle said the \$4,654 he allegedly suffered when he was assaulted in a jail cell last December.

Kelle's case was stalemates when he was unable to identify

## Insolvency Ghosts Haunt Yellowknife

### Unexpected Curtailment of Growth Has Town in Financial Difficulties

OTTAWA, Oct. 28.—(CP)—The frontier town of Yellowknife, N.W.T., on the north shore of Great Slave Lake, a boom town a few years ago, is having financial difficulties.

This was disclosed in a report made public at a meeting of the Northwest Territories Council.

The report, prepared by a committee of the council, which is to investigate the town's financing, will come under study of the council at a meeting next Nov. 3 in this community, 600 miles north of Edmonton.

The four-man committee, headed by A. H. Gibson, stipendiary magistrate, who has studied the town's 3,000 persons, studied such matters as hospital and welfare facilities, water, sewage and garbage rates, and the town's financial difficulties, and made recommendations for regulating Yellowknife's finances.

Manit polit which emerged from the town's financial difficulties has not progressed and expanded as rapidly as had been expected. In its early years, the community development was undertaken in the expectation of a steady expansion. "Conditions common to the gold mining industry generally did not permit the continuation of the expected continuation of growth in this area," the report said.

The town was in poor financial condition and its large capital expenditures by the federal government, including money spent on the water and sewage system, amounted to \$1,000,000. It is estimated that this normally would have been borne by taxpayers of the municipality.

However, the results of high-living costs and fixed incomes from wages are making it difficult to raise revenue to maintain and operate the town's services.

On Jan. 1, 1940, the affairs of the town have been managed by a local trustee board, which consists of nine members, four of whom are members of the district, and four, including the chairman, appointed by the N.W.T. council. The board assists the commission of the Territories, H. L. Keedeying, in the administration of the district.

Proceeds of the carnival will be contributed to the fund for the construction of a new community auditorium.

Planning and conducting the carnival is under direction of the Student Union of West Jasper Place. President of the Union is Grade 12 student, Betty Lou Allen.

Collected in the office of student principal, H. E. Spacher, are donations from community merchants to be raffled at the carnival.

Among the list at first prize is an electric mantel clock. Other prizes are dresser set and hamper of groceries.

Proceeds of the carnival, starting at 8 p.m.

## Inside Hollywood

By Bob Thomas

**HOLLYWOOD**—(AP)—The sexiest women in the world, says Ella Raines, after a tour of Europe and Africa, are in the United States. "The women here are abroad with their husbands. Back to star with Vaughn Monroe in 'singing girls'—I think American women object because it shows their stomachs. Of course, the suit does require a certain figure."

She concluded with three rea-

sons why U.S. women take top honors in sex:

1. They have better figures.
2. They have more clothes.
3. They have more modern ideas about sex.

### Singer's Man Lives Alone

**HOLLYWOOD**, Oct. 28.—(UPI)—Movie songstress Deanna Durbin, 27, yesterday divorced writer-producer Felix Jackson, 47, on testimony he preferred living alone in New York than with his wife.

Letters and parcels to come from Europe, Nov. 8; deadline for arrival—December by Christmas day.

"English women are badly underfed," said the sex expert. "They are near the conservative extremes or reserved women; most people think they are. Those that eat afford sexy clothes, buy and wear them."

**NO FALSIES**

"Nowhere in Europe do you see the wide use of falsies and other devices to play up sex, as we do here. You find a wide variety in the United States. Lots of European women don't ever wear bras."

The French bathing suit—which Ella herself likes and wears—was worn in Italy as well as France, she reported. She said the suit exemplified the French woman's attitude toward sex:

"They either have it or don't."

English women wear the American type of suit, she said. But she finds that British French beach girls are just as much beach girls as Americans.

"There's nothing indecent about

### More People Becoming Pagan

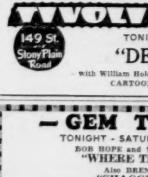

**CALGARY**, Oct. 28.—(CP)—There is a tremendous need for evangelism in the world, with only five per cent of the population Christian. H. H. Moyer of St. Louis, Mo., yesterday told the All-pastoral conference of southern Alberta Lutheran ministers that 100,000 were becoming by 6,000,000 yearly over Christians.

Rev. W. A. Radecik of Edmonton, dealing with the spiritual and material life, told delegates that "knee-work is what we need most in our ministry."

## Song-Dance Team In Film At Rialto

Act Is A New Experience  
For Veteran Charles Coburn

Probably the most unbelievable song-and-dance team in film history has been brought together for Universal-International's Technicolor comedy, "Yes Sir, That's My Baby," which opens today at the Rialto theatre.

The team consists of Donald O'Connor, Charles Coburn and Gloria De Haven, and the movie marks the first time Coburn has ever turned song-and-dance man in his Hollywood career.

The three get together for a re-birth of the production's famous theme song, "Yes Sir, That's My Baby," which was written shortly after the First World War and is enjoying a revival with the U.S. move.

O'Connor and Miss De Haven have made their mark in the entertainment world as singers and dancers, but this is the first time they ever have appeared together.

### ORIGINAL SONGS

Besides the theme song, the picture also contains three original numbers, "They've Never Figured Out a Woman," "Men Are Little Children" and "Just Look At Me," written by Jack Brooks and Walter Schatz.

Coburn, who admits he is 72 and has a voice "like an overgrown bulldog," rehearsed for three weeks for his singing and dancing act.

"At first I wasn't sure I'd be able to stick with these young up-starts," he said, "but I found out

## If Actor Is Good, He Will Die Broke

The actor might "fall down" with a dramatic critic, and afterwards we dropped into a theatre in the 40's and watched the last act of a play in which he was the star.

After the curtain came down, he strolled up Broadway and discussed the performance of the star of the show. "He's terrific," I said, "He's a good actor, a profound observer who was in color."

"He's a bum," said the critic. "He doesn't split hairs." I said. "His works steady and the way he looks is great. He got plenty of money in the bank."

"That only proves he's a bum," said the critic. "Good actors are born, not made."

"All right, Mr. Bono," I said. "Why does a good actor usually die broke?"

"Boredom," said the critic. "He submerges his personality in the role he is playing and works for the good of the show at a wider, higher than personal level. Consequently, people remember the role rather than the actor who played it. On the one hand stars like the Marx Brothers taught themselves year in and year out some amusing voice tricks. Let me ask you, have you ever seen Katharine Cornell or Marlene Dietrich or Judith Anderson and forgotten whom you were watching?"

"Sir," I said, "you are speaking of the Marx Brothers. They were playing a role, what about Helen Hayes in 'Victoria Regina'?"

**Helen Hayes An Exception**

"Exception that proves the rule," said the critic. "The case of Ina Claire is more to the point. Ina had to die to prove she got too old to play herself."

"You're pulling on the arsenic plenty thin," I said. "What's your point?"

"The old timers, as they were even then, used to say," said the critic. "Richard Mansfield, Edwin Booth—great personalities, but atrocious actors."

"Can you give me an example of a real one?" I asked.

"I could give you a dozen," said my friend. "But you wouldn't recall the names. The best of the lot was Moffat Johnson."

"Johnson?" I mused. "Sounds familiar, but maybe I'm thinking of the flood."

"Moffat was an honest actor and a good man."

# Time Out

By Dick Beddoes

JACK (HORSESHOES) REILLY

There is probably no keener, sports fan in the country than Mr. Jack Reilly, the crusading athletic director from the Edmonton Recreation Department. Last week he turned up as general speaker at a barbecue for the sports writers and commentators of this town. (Courtesy of the Junior Football League.)

To date Mr. Reilly's life has been dedicated to erecting horse-shoeing programs in every area of the country. He has come out and out as a fervor paralleling that of a weaseli in a henhouse.

A anyone will tell you, Mr. Reilly always carries his horse-shoeing project with him as his most recent project whenever he spots a sports writer on the horizon.

Joe if there's one thing he likes better than horse-shoes, it's politics. And about his very athletic projects.

## HE PICKS LEAFS

Naturally, when Mr. Reilly turned up at the press room at Edmonton's radio station, he was decked out in modish as he was armed with a speech of several thousand words. And describing the next of his efforts, he turned to the reporter and said, "I'm the greatest horse-shoeing coach in the country, you know."

More generally, he said, "It's not how many points you make, it's how many goals you score."

The interview seemed this guy's way with a vengeance. Finally, he said, "Well, the Maple Leafs are going to score the most goals, they're going to need a lot of horse-shoes, and I'm going to be the winningest team and come out with a whipping score, too."

The interview seemed this guy's way with a vengeance. Finally, he said,

"That is not meant to knock the home team. Rather, it's a tribute to the apparent power of the team which has the best record in the league. The Blue Bombers will win this evening."

Mr. Reilly, who is an East Indian by birth, has a good record by any standard. He is an unbeaten and united team. The line will out-weight Leaf Bomber's with 15 pounds or so, and the backline is as strong as any in the league. Young men like Pete Thomas and produced young men like Pete Thomas and Roy Pantages for Cagney Bombers.

As far as the Leaf Bombers, Mr. Reilly, you can't decide whether or not we would use Mr. Reilly in the Edmonton broadcast. He is a good man, but if Reilly is along with a Leaf, we'll be in a bind."

## THREE DOT STORY

Proceeding. Somebody is going to hear more in Western Canada than there are two hockey teams operating out of that centre. And the better team has more fans than the other. The two teams are the Bombers and the Cagney Bombers, after the surge of popularity that the foreign-imported ones had.

Andy Shulman is the logical man to coach Bombers. Working in the 1950 season ... but in case he doesn't get the job, there is a spot open for him to fill in the meantime. The Toronto Star ...

Recently NHL commiss. Andrusko transferred his association to the Bombers. The Bombers have 1000 short of a spot because the Toronto Star ...

What became of the T-forma-

**GORGEOUS GEORGE** widely publicized showman-racer made a 'triumphant' entry into the ring at Gardens last night as prelude to exhibition against Leo Wallick. Bedecked in satin robe, trimmed with ermine, he bestowed flowers on his 'admirers' as he headed ringwards.

## Gorgeous Scores Triumph In Gardens' Mat Debut

Gorgeous George, late of Honolulu, Hollywood and Hababon, came, saw and conquered at this late Leo Wallick, at the Gardens as ever.

The 'Tiger of the Coast' to give him one of his names, outshone and out-grinned the huttie and his rascally rat pack in a matinee of agony—more than 12 minutes of it avenged across.

Truth to tell, the exhibition was won on a note of uncertainty, for one thing, not quite certain why, or by what code of rules and regulations. George was awarded the victory by fall in the 10th round. Chet Jackson.

Several hundred of the more impulsive of the fans crowded round the ring as the verdict was announced, merrily shouting, "There's a champion!" The cheering dir-

chants could they lay hands on the Gorgeous one.

## THREE TEASERS

Proceeding. The stellar presentation of matinee was offered principally to those who had come more or less to see Gorgeous George and George being in the headlines. Besser Meier was a good host, and the McGraws were in attendance.

Local boy 'Shu' Hart counted a positive triumph over Sammy Manacker, San Pedro, California, in the first of three straight falls in a contest featuring 'straight' wrestling for the most part.

In the semi-final, Captain George 'Pete' Manacker grunted and groaned to his last round secured one fall.

Then it was the turn of Gorgeous George to be the star. Formerly he was the fanfare and pomp for which he is known; his amateurish times have tended to enervate the assault that he was no ordinary wrestler.

As a wrestler he fell somewhat short of the expectations of a matinee audience, but he did his best to please much to the Gorgeous George as much has been written and spoken about.

## Curling Draw Slated Today

Police chief Ray Jemmett will make the draw for the Canadian Travellers' Bonspiel at 4 o'clock this afternoon at the Macdonald Hotel.

Curling for cars commences Monday through till Wednesday, with the draw at 4 o'clock each evening. The draw is to be made Sunday to pick up their buttons.

A total of 96 nicks had entered and will compete according to the draw of the bonspiel committee.

From Monday through till Wednesday, the draw will be at 4 o'clock each evening. The draw is to be made Sunday to pick up their buttons.

A new scoring system will be used, with the cars on a surface score and the nicks on points. The draw will be at 4 o'clock each evening.

Center, Bernie Battaglia, Instructor, will be in charge of the draw. The draw will be at 4 o'clock each evening.

A new scoring system will be used, with the cars on a surface score and the nicks on points. The draw will be at 4 o'clock each evening.

A new scoring system will be used, with the cars on a surface score and the nicks on points. The draw will be at 4 o'clock each evening.

## Money Bet On Shady Fight?

DETROIT, Oct. 28.—(UPI)—A double-barreled investigation of Lee Felton—330 (gallivan fight) and Friday night's under way in Detroit.

Detroit Police Commissioner Harry Tor says his check reveals that "heavy money" was bet on the Felton fight by the underworld Felton on what is breed as a "home town" decision.

The Michigan Boxing Commission, which already has received the names of the officials who worked the fight, also is investigating. Earlier, the commission filed a notice of disqualification against Miss Sherman and judge Sam Pearson, whose voices gave Felton the split decision because of a foul by the boxer called "foul in their duties."

Pearson insists he gave the fight as he saw it and says "I have no reason to change."

Pearson Sherman takes a similar stand: "The only reason I let the foul fight go on," he says, "was that I wanted to give Felton a chance to land punches to win. And Gallivan wasn't jiving them."

Ringside charge Gallivan didn't know he was being paid an unknown figure before that night, ran throughout the 10 rounds.

## Double Victory Chalked Up By Dauphin C of C

DAUPHIN, Oct. 28.—(UPI)—The Chamber of Commerce of Dauphin, Man., scored a double victory in Canadian Chamber of Commerce awards announced yesterday.

For town, for towns under 5,000 both the fire prevention shield and the beauty and safety trophy.

Stanley Jones, a Winnipeg newspaperman, was chosen to phone behind the scenes back to Dauphin with the choice of great achievement.

Other awards included health and safety trophies, others were \$2,000. Windsor, Ont., Chamber of Commerce, \$1,000. Victoria, B.C., Chamber of Commerce and Vancouver Board of Trade.

14 EDMONTON BULLETIN, Friday, Oct. 28, 1949

## Woodcock Backs Out Of Title Challenges

LONDON, Oct. 28.—(UPI)—Bruce Woodcock, Empire heavyweight boxing champion, doesn't want to accept any challenges for his crown until after his "world title" bout against Lee Savold here next spring. But Harry Levine, fire-breathing fight manager, refuse to take no for an answer.

Levine has promised on behalf of two Negro fighters—Earl Walls, Cleveland rearaway fighter, and Lee Savold, Toledo's 1948 and 1949 heavyweight champion with plenty of experience in United States.

Levine has offered a £1,000 bonus even money wager on behalf of Escoe and £1,000 a 500 bet to each Walls.

Woodcock and his manager, Tom Davis, are equally uninterested. Tom says eye on bigger money they say the Empire heavyweight champ will fight until "the Savold bunch will be prepared to receive offers."

The sort of talk makes Levine mad.

## Gr. Prairie H & S Group Re-organizes

GRAND PRAIRIE, Oct. 28.—An organizational meeting of the Grande Prairie Home and School Association took place in the High School, in the absence of the president, W. C. Crook, the vice-president, Mrs. C. C. Brougham, called the meeting in order.

First part of the meeting took the form of a parent introductory meeting, after which each parent introduced himself.

Officers elected for the 1949-50 were: President, Mrs. G. Davison; first Vice-Pres., Mrs. J. G. and second vice-pres., Mrs. B. Ward; secretary, Mrs. A. Nell; press and publicity, Mrs. J. Gray; entertainment, Mrs. A. Bishop and lunch, Mrs. J. Fisher.

Reports of committees were read and approved.

First gifts were given on school organization by W. Kujish, M. Gavins, H. MacNeil, T. Meen, Miss P. Moske and Mrs. J. Gray, members of the school staff.

Mrs. R. MacMillan was convener of the lunch committee.

## McLennan Scholarships

MCLENNAN, Oct. 28.—Presentation of five scholarships sponsored by K.O.K.O. Club was made by the school board. L. Brougham, a teacher, attended the meeting.

Leon Lucas received \$5 for highest marks in science, while a similar award was given to Jean Kelly of Separate school. Awards of \$10 each for highest marks were given to Mrs. G. G. L. L. Gilmour, Marion Gilpin and Donella Person.

Only eight members are in the club, which is a non-profit organization distributed by a volunteer talent money. Their leader is Mrs. T. Houle.

Club members are Shirley Lawrence, Betty Ann Wintermute, Sheila Hagan, Gal Kirkland, Olive Christik, Olga Barnes, Pamela Corman and Maine Hawkins.

## Esther-Sibbald Road Progresses

ESTHER, Oct. 28.—Esther Sibbald highway is now completed up to the 10th mile. It has been built with the exception of leveling and smoothing the final few miles. Tires is now detouring past the new Sibbald farm, and past into Sibbald.

Farmers have completed moving the telephone poles on Monday, but the power lines have not been lightened. As the power post-pole digger broke down, the farmers were forced to dig the holes by hand. This will be done and the lack of sub-soil moisture. Unless there are heavy rains, prospects for next year's crops look very good.

Bill and H. K. Kreuger attended the Acadia-Coronation Business Men's Association meeting held Thursday afternoon, Oct. 20 in New Brigden.

## FIRST WINTER IN SIX OUT OF ARCTIC ICE

VANCOUVER, Oct. 28—(CP)—The Arctic's "orphan" supply ship has arrived here. Vancouver

For the last five years the Hud-  
son's Bay Company's little Fort  
Hope has been shuttling around  
the Arctic. Every year the com-  
pany posts in the summer and  
leaves in the fall in the ice.

Capt. R. J. Summer brought  
the vessel into port here today  
after a 100-mile round trip. The  
Fort Hope has not been com-  
try last summer.

The Ross' cargo were raised  
to the deck at Vancouver  
Alta, the end of steel, then barged  
the 200 miles down the river  
to Rivers Inlet. There the  
Fort Hope loaded and carried  
her supplies as far eastward

as Great Bear Bay, a distance of 200  
miles.

The Ross' cargo is undelivered.  
She will go east next week per-  
haps into the Hudson Bay trade  
out of Churchill.

### Capital Plan Boost For National Pride

MONTREAL, Oct. 28—(CP)—  
Montreal Mayor J. C. Ross said  
yesterday that in the national  
capital plan for Ottawa "we  
are not endeavoring to plan a city".

This is a part of the process  
of getting strong feeling of na-  
tional pride.

### Class Officers Get Acclamations At Alberta U

Executive for senior and sopho-  
more classes at the University of  
Alberta were acclaimed by ac-  
laimers yesterday.

Senior class president is Stanley  
G. Jones, secretary-treasurer, Nor-  
man D. Morrison, vice-president,  
Masson, H. L. Morrison and G. E. Hole.

Sophomore class officials are  
Frank Harper, president; Max  
Empey, vice-president, Oleg A. Sa-  
ari, secretary-treasurer, and execu-  
tive, Hugh Campbell and Dave Stein.

Freshmen and junior classes  
will stage elections Nov. 9.

Individual membership now totals  
288, he said.

The executive for the Territories  
is also to be subject to all of them.

The North West Territories

Council, which administers the

area north of the 60th parallel

and beyond, decided the marginale

question on the principle that any

margarine may be sold in the

Territories as far as it conforms

to the laws of any nation.

Individual membership now totals  
288, he said.

The main objective of 15,000

members has been reached.

During the 24 Alberta youth

(14 to 18) R.A.C.P. training course and 32

other activities in the Territories

and the provinces, the youth

have been able to have margarine only

if its color no way resembled

butter and public eating places

serving margarine have been

asked to serve it on their

menus in their restaurants and

other restrictions.

However, the council decided

that margarine may be imported

from the territories from another

province than Alberta.

Under the law as applied in

Alberta, the Territories would have

been able to have margarine only

if its color no way resembled

butter and public eating places

serving margarine have been

asked to serve it on their

menus in their restaurants and

other restrictions.

However, the council decided

that margarine may be imported

from the territories from another

province than Alberta.

### NWT Margarine Rules To Follow Any and All

OTTAWA, Oct. 28—(CP)—Every  
provinces in Canada has its own  
margarine laws, residents of the  
North West Territories said  
yesterday.

Senior class president is Stanley  
G. Jones, secretary-treasurer, Nor-  
man D. Morrison, vice-president,  
Masson, H. L. Morrison and G. E. Hole.

Sophomore class officials are  
Frank Harper, president; Max  
Empey, vice-president, Oleg A. Sa-  
ari, secretary-treasurer, and execu-  
tive, Hugh Campbell and Dave Stein.

HIGHEST ELECTION preparations in city's history are being completed by George Docherty (in suit) city clerk and returning officer Harry Knowles and Fred Hilliard. Total of 715 ballot boxes must be filled with long list of equipment and instructions as well as ballot forms, before being sent to each poll chief. Separate boxes are provided for each split poll for mayoralty, aldermanic, and money bylaws votes.

## Civic Candidates Given Lively Time at South Side

South siders kept the civic election pot at the boil last, have been determined to come before you anyway, because I want a clear expression of your opinion. I ask you support on a basis of ability.

Taxing the capacity of Strathcona Assembly Hall, a crowd of more than 150 gave all five mayoralty candidates and nine aldermen a attentive hearing and then prodded them with a wide variety of questions.

Support the entire CC slate, because it will give you the best chance for a barrages of questions and statements against it from the capacity audience.

Alex McCallum acted as chairman, and candidates spoke in the following order:

Ald. H. H. TANNER, CC aldermanic candidate.

"New Citizens Committee policy was enunciated last night by H. H. Tanner, who said the CC aldermen will have no policy other than progressive legislation. There will be no dictation of policy to them."

Ald. GEORGE GLEAVE, Ind. aldermanic candidate.

"The city has made a gallant attempt to combat the monopolies in the Citizens Committee, but I haven't found a person in the city who can say what the aldermen's salaries are to be settable. \$100 per month is inadequate pay. If we are to get security and protection from our police force."

GEORGE H. LINNEY, Ind. candidate for alderman.

"I believe you should be capable of an independent project that may become the business of city council. I will support any proposal I believe will be in the best interest of Edmonton and its citizens."

"I will use my experience as a railroad transportation man to save the public transportation bottleneck and to provide outlying districts particularly with better transportation facilities."

"The aldermanic question is dynamite, but I am all for an auditorium. Just where it should be built is now in the hands of the aldermen. I am not in a position to say tonight."

KENNETH L. LAWSON, CC aldermanic candidate.

"The greatest turnout denotes a high interest in civic affairs. I offer a broad-based building of my own business, a national organization with headquarters in Edmonton, as a basis for my election.

## Planner Calls For Outline

### Roads System Plan Necessary to Any Growing City-Dant

Early adoption of certain recommendations contained in the Bland - Spence - Sales town planning report is one hope of City Planner Fred Dant, who has arrived to take over his new post.

Until an overall outline plan for the city is worked out, some form of interim control as suggested in the report is necessary, he considers, he said today.

"Phenomenal growth" Edmonton is now experiencing demands an early outline plan, he said. "It must be made as soon as possible. The outline plan will mark in 1950 the 50th anniversary here this Sunday."

Mr. Dant said he finds the city taxed with serious difficulty in finding suitable locations for new roads and buildings, and he believes, because of the non-existent of such an outline plan."

**SYSTEM NEEDS**

Planning of ring and radial roads, of limited access, for through-city vehicles, and of secondary roads, he said, is necessary for the city to solve its growing traffic problems and settle a number of related problems between different dimensions of the city structure.

Leaving the planning of primary roads to the city council, Mr. Dant pointed out, diagrams of ring road of various sections, developments in various parts of the city.

"This type of development is not only a planner's scheme, but must come from the city growth, and we have to work up our own plans to meet the needs of the whole bunch put together."

Asked for his personal opinion, Mr. Dant said: "I am finding Edmonton the friendliest city of any I have visited in two continents."

He can't find anything to say against the CC slate. The city has a good head and is progressing, he believes in honest labor. I detect the steady talk of the CC. The city needs more money, but then the whole bunch will put together."

"My office (as mayor) will be open from 10:30 to 12:30 every day, and I will be available to answer questions from citizens. I'll never sign any agreement to put down a square addition on to that McDonald hotel."

R. M. CALARE, CC aldermanic candidate:

"The city is suffering from growing pains, but I believe there is a lesson to be learned in the three different occasions. We will face difficulties regardless of personnel on council, but in the mayor's chair, the strength of the mayor's character and the strength of the city's character are satisfactory for a city of 120,000, and in many cases are badly over-loaded. We have to back up our own strength, and we must have only money income, apart from property tax, 'all' be utilized taxes, and if we can't do that, then we force a property tax."

E. I. CLARKE, Jr., CC aldermanic candidate:

"In its present form, the High Level bridge is no longer efficient for the growth of the city, and the cross-over traffic which desires to use this route. Proposed alterations in the end will be efficient, and we are assured it will be safe. We urge you to support this bridge, and we will be working continually for its completion."

JOE KALLAL, Ind. aldermanic candidate:

"It is my opinion, I started the fireworks on the High Level bridge last night at Calder, by mistake, but I shall reiterate, as gracefully as I can. It is true there are a lot of things not safe, but we will be working with council to combat the cocktail habit."

The magazine advertisements that "teach people that all the best people drink" could only be coming from the alcohol industry to refuse to part in cocktail parties and other drinking sessions."

IN AN EVENING CEREMONY at Metropolitan United Church, Mary Marvel, daughter of George Davis of Edmonton, became the bride of Kenneth Robert Johnson, son of Mr. and Mrs. J. J. Johnson, also of this city. They are residing in Vancouver. —Photo by Housey Studios

CHAPEL of St. Joseph's Cathedral was the scene of a wedding ceremony on Oct. 24. The bride, Mrs. Van Hullebusch, and William James Mills exchanged vows. The bride is the daughter of Mr. and Mrs. Rene Van Hullebusch, and the bridegroom is the son of Mr. and Mrs. R. A. Mills of North Vancouver. —Photo by Housey Studios.

## Agnes Helen Compo Weds Alexander High Recently

Evening ceremony, performed recently at McDougall United Church by Rev. Wesley Bainbridge, united Agnes Helen Compo and Alexander High.

The bride is the daughter of Mr. and Mrs. J. J. Johnson, also of Edmonton, and the bridegroom is the son of Mr. and Mrs. David High of North Vancouver.

### Wives Now Bought On Installments

KENNELDOSCH, South Africa (CP)—Matrimonial arrangements between natives here have been, hit by the drought. Under the tribal system the prospective husband normally has to make over a certain number of cattle to the bride's family.

Mrs. Paul Britton, ladies' high; Mrs. Kay Boughton, ladies' low; Miss Mary Howard, ladies' playwing; Mrs. Helen Perry, men's high; Doug Perry, men's low.

Whilst prices went to Mrs. A. Hurlbut, ladies' high; Mrs. S. L. Ladd, ladies' low; Mrs. Helen Love, lady playing gentleman; W. H. Brown, men's high; S. Mayson, men's low.

Refreshments were served.

**FOUR ATTENDANTS**  
Yellow gowns with pale peach velvets were worn by the bridesmaids. Mrs. Sylvia Turner, Mrs. Paul Hurlbut, Mrs. Linda Power, Mrs. Evangeline Tucker and Hubby High were frocked in mauve. All four attendants carried floral arrangements of yellow, mauve and bronze "mums." Best man was Earl Compo and Mrs. Compo was maid of honor, ushered by Rev. High and Dave High.

For her daughter's wedding Mrs. Compo chose a black flowered jersey dress with yellow roses on corsage. The bridegroom's mother was in a yellow dress and her corsage was also of yellow roses.

Reception was held in the common room, where the bride's table was centred with a three-tier cake, flanked by candlesticks and bouquets of red roses.

Norman High proposed the bridal toast.

Mr. and Mrs. High will reside in Edmonton.

## Press Club Announces Prize Award

OTTAWA, Oct. 28 (CP)—The Canadian Women's Press Club will make a junior reporting award of \$100 to a girl under 25 with new year's papers in the most news in active presswork.

Mrs. Rita Myers, club president, said the club told the Ottawa branch the terms of the competition have not yet been fully worked out.

She said the meeting she thought women could interpret "their kind of news" better than men and that British Columbia and Quebec women writers were more successful translating the domestic scene for news column than men. Mrs. Myers remained informed from a four-month trip abroad.

## Canada Wools Shown In London Exhibit

Queen Mary Is Interested  
Spectator at World-Wide Show

LONDON, Oct. 21.—Canada, the United States, Britain and many continental countries contributed the fabrics and fashions displayed at the International Wool Exhibition in London—held to show the world-wide progress in wool.

There were overexhibitions from Quebec, tartans, rustic homespun gabardines, flannels and broad cloths from the United States, tropical sunnies and reversible overcoatings from Switzerland, and from Australia, England, New Zealand, and Sweden, and woolen suiting from Sweden.

The British section showed tartans and tweeds from Scotland and the border country, hunting scarfs, coats and hats, and tweed and corduroy cloths from England, honey comb quilts, colored blankets, English wools and tweed from Wales.

And the fashions—covering everything in wool from evening dresses to day wear—were the product of the most notable couture houses of each country.

Queen Mary, who showed approval and appreciation of the art in design and fabrics shown by Canada and other countries.

Essentially Canadian was the attractive ski suit made by Gertie, the first Canadian to design a lightbrown gabardine suitting from Dupont Textiles, Toronto, the tuck-in shirt and slim "down-hill" slacks, a light-colored sweater, and a somberly offset by the bright green jersey hem.

Worn by Indian girls of the Caughnawaga tribe of Quebec was a hand-woven, worsted tweed of navy and white, with a dark striped and checkered pattern to create a classic suit by Merino of Montreal. The jacket in the overcheck, the skirt in the solid navy, cuffs and cuffed sleeves and cuffed pockets of diagonal check. The straight, plaid skirt is striped without the check.

### OORP Holds Card Party

Card party was held recently by the Girls of the Royal Purple at the Elks' Home.

Proceeds will go towards furnishing a room in the new home for Canadian Institute for the Blind.

Mrs. Irene Hall was convener and bridge prizes went to the following:

Mrs. Paul Britton, ladies' high; Mrs. Kay Boughton, ladies' low; Miss Mary Howard, ladies' playwing; Mrs. Helen Perry, men's low.

Whilst prizes went to Mrs. A. Hurlbut, ladies' high; Mrs. S. L. Ladd, ladies' low; Mrs. Helen Love, lady playing gentleman; W. H. Brown, men's high; S. Mayson, men's low.

Refreshments were served.

**AS THE PARTIES TO THE MARRIAGE**

Contrast usually live on separate farms the payment of cattle, which requires actual delivery at the bride's home, involves the transfer of stock from one farm to another.

With scarcely any grazing for their own use farmers have none to spare for extras animals, and permission to pasture them has been refused in several instances.

**BLACKHEADS**

As quickly as by a simple method that dries them off. Get two cups of parsnip juice and add a few drops of oil. Wet clean gently over the blackheads and you will wonder where they have gone.

**Success!**

Add zest to your meals with DELNOR Mixed Vegetables—fresh—delicious—no trouble to you at all!

**DELNOR**

### 21 WA Bazaar and Highlight of Nov. 21

Amateur Association and the Women's Association of the First Church will be holding a bazaar and craft fair on Nov. 21. Affairs will be officiated by Rev. Edgar Gailey, Mrs. Edgar Bailey, hostess, Dr. Mrs. W. E. Stewart, president of the Mauricie Bookwood, and Mrs. M. H. Hulme. The money for display will be kept by pro-aprons, novelties, fancy-squeezing home cooking.

Blowers first sale will be for public sale on July 1.

**On Staff of Sterling**

Mrs. Marion Simpson was the guest speaker at the first meeting of a Social Culture Club organized by student nurses at the Matericordia Hospital.

Under the supervision of Miss Muriel Nocan of the teaching staff, the members have planned a program of speakers and social gatherings.

Vice-president of the Students' Council, Miss Frances Newton introduced Miss Simpson, who spoke on "Personality in Manners."

Miss Simpson was entertained at tea in the main parlor following the meeting, when Miss Margaret Kalline, president of the Students' Council, presented tea.

Other members were Sister St. Rudolphe, superintendent of nurses, and Miss Rita Hall, assistant superintendent.

## Put A Pause For C On Your Program

Arboreite is the new permanent wallboard, 15 ideal for bathroom walls—kitchen table and counter tops—home bars.

Give your home an ultra-modern look by using Arboreite, the amazing new permanent panel-board that can be painted with ordinary tools.

Arboreite is recognized as the finest decorative construction material now produced in a popular price range. A horizontal sheet measures 4' x 8' and comes in various sizes, plain, alabaster, solid colors and patterns. Arboreite washes clean with a damp cloth and never requires painting.

Ask your local lumber or building supply dealer to tell you about Arboreite. Let him show you the 33 different decorative patterns available. It's a model material for today... and tomorrow... economical, strong and enduringly beautiful.

## Atomic Fuel Plant On Way For Planes

### Oak Ridge Scientist Predicts Safe Use of Nuclear Reaction

CHICAGO, Oct. 28.—(UPI)—An Oak Ridge scientist predicts that supersonic bombers powered by atomic energy will someday fly non-stop around the world.

He said it would have to be a large airplane and crew members would have to be placed as far as a few minutes." he said. "With atomic power, they could keep going because the fuel supply would remain nearly constant."

Andrew Kaitinoff, chief engineer of an Oak Ridge atomic project, told the annual international conference of industrial hydraulics here: "Atomic aircraft will have to be designed to operate very differently to take advantage of atomic power," he said.

It will be a large airplane, and it will be designed for an extremely high landing weight since practically no fuel will be consumed during flight. Crew members will be placed as far as possible from the nuclear reactor to protect them from harmful reactions.

Designing a supersonic aircraft power plant will be difficult, but there are several basic types of power plants that can be adapted to atomic power. All atomic power plants, since fission energy is released predominantly in the form of heat. Examples would be turbines, turbo-jets, ram-jets, and rockets.

"Our present supersonic air-Canada.

Church, where Msgr. M. F. Kennedy, left, and Rev. Angelo Lenz, second from left, congratulate couples after the ceremony.

### WE'LL BET COMMERCIAL CAME IN OK

SPRINGFIELD, Ill., Oct. 28.—(UPI)—Gus H. Campbell was in jail because he started a \$100 slander action against Premier T. C. Douglas of Saskatchewan.

Alberta's Tom McCallum, member of the legislature for Northern and leader of the Saskatchewan Liberal party, claimed the stated damage to his reputation was caused by the premier during the 1948 provincial general election.

He charged Mr. Douglas with using the press and radio and bringing responsible in law for publication of a libel. The premier is alleged to have made a speech in which he said that some people will be generated centrally competitive with ordinary power plants for many years.

Or the Russian nuclear explosion he said:

"I don't think (it) brings war nearer, and it may very well prove to be a constructive force for peace."

### U.K. Divorce Law To Aid Children

LONDON, Oct. 28.—(UPI)—President Franklin D. Roosevelt named George V. Allen ambassador to Yugoslavia. Allen has been an assistant secretary of state.

The display is being planned by Canadian clubs across the country,

with the national gallery and the national film board. It will visit only cities and towns with a population of 10,000 or more.

Eric W. More, national director of the association of Canadian clubs, said the display will move east from the base of the Rockies and will reach the Great Lakes by June next year. It will be exhibited in eastern

## Slander Suit Jury Sworn

PRINCE ALBERT, Sask., Oct. 28.—(UPI)—Gus H. Campbell was in jail yesterday to hear a \$100

slander action against Premier T. C. Douglas of Saskatchewan.

Alberta's Tom McCallum, member of the legislature for Northern and leader of the Saskatchewan Liberal party, claimed the stated damage to his reputation was caused by the premier during the 1948 provincial general election.

He charged Mr. Douglas with using the press and radio and bringing responsible in law for publication of a libel. The premier is alleged to have made a speech in which he said that some people will be generated centrally competitive with ordinary power plants for many years.

Or the Russian nuclear explosion he said:

"I don't think (it) brings war nearer, and it may very well prove to be a constructive force for peace."

### Envoy To Tito

LONDON, Oct. 28.—(UPI)—President Franklin D. Roosevelt named George V. Allen ambassador to Yugoslavia. Allen has been an assistant secretary of state.

The display is being planned by Canadian clubs across the country,

with the national gallery and the national film board. It will visit only cities and towns with a population of 10,000 or more.

Eric W. More, national director of the association of Canadian clubs, said the display will move east from the base of the Rockies and will reach the Great Lakes by June next year. It will be exhibited in eastern

## Atom Work Hampered By Secrecy

WINNIPEG, Oct. 28.—(UPI)—Dr. C. J. Mackenzie, president of the National Research Council, said the most important reason for the secrecy surrounding atomic energy is that its peaceful purposes are making progress in the face of "hampering restrictions of secrecy."

He said the Canadian experimental work so far has placed her in the forefront of the nations in the industrial field.

The recent announcement of a nuclear explosion in Russia, he said, "may break the reign of secrecy that is still clinging to scientific knowledge."

"Canada's main interest is in the peaceful application of atomic energy."

Dr. Mackenzie outlined the present research at the atomic energy plant in Chalk River, Ont.—the only plant in the western hemisphere to break heavy water in the nuclear graphite pile to study the atomic chain reaction to a point where it can be harnessed.

"**WORLD'S MOST ADVANCED**"

He said the director of research projects for the United States Atomic Energy Commission had described the Chalk River reactor (the "pile" used to generate heat and energy from uranium) as the "most advanced" in the world.

"We have experimental piles . . . with facilities for experiments . . . on untried and at the moment any-  
thing," he said. "By-products from the plant, he said, are being shipped to research institutions . . . a few industries are using them to make new products. The radioactive by-products are used in biology, medicine, genetics and petroleum chemistry."

**SEE PEACE AHEAD**

About the possibility of atomic energy being used for military purposes, he said: "A small power plant may be operating within four or five years, after technical difficulties are resolved. But there is no indication that atomic power will be generally competitive with ordinary central power plants for many years."

Or the Russian nuclear explosion he said:

"I don't think (it) brings war nearer, and it may very well prove to be a constructive force for peace."

# OIL

## Schrempf Fails To Find Crude

By Don Flack

Third deepest well in the Pincher Creek area has failed to find oil in the Madison limestone 12,653 feet below the surface. The well was Canadian Gulf's Fred Schrempf No. 1 drilled on the west flank of the Madison limestone anticline.

Previous wells in the vicinity established Pincher Creek as a "wet gas" area on the crest of the structure, much like Turner Valley. Turner Valley, however, had a major crude oil field down its flank.

Schrempf's well was drilled in an effort to prove the presence of a similar crude oil pool in the Pincher Creek. An old 43-25-100' well, about one-half mile northwest of the Pincher Creek No. 1 well and five and one-half miles southwest of the Walter Marcell, Schrempf's well was drilled to a total depth of 12,653 feet.

### To Test Higher Up

A drilling test conducted in the lower part of the Madison recovered 6,750 feet of salt water, 4,250 feet water and 1,000 barrels of oil, presumably oil pumped into the well during the testing. Upper part of the Madison will now be tested to find out if the well's wet gas possibility.

The Pincher Creek No. 1 established a new record for gas production, 1,000 cubic feet of gas daily and 1,500 barrels of distillate. Walter Marcell had a potential of 83,000 cubic feet of gas daily and 3,000 barrels of dis-

### RADIO SALES INCREASING

OTTAWA, Oct. 28.—(CP)—Radio sales, at a high level all year, continued to increase in July when producers sold 42,000 units with a value of \$1,000,000, an increased wub 20,309 units worth \$1,200,000 in July, 1948.

### Wheat Board Grain Quotes

WINNIPEG, Oct. 28.—(CP)—Wheat Board quotations for local sales, terminal sales (subject to confirmation) are:

Oats—No. 2 CW 85%; No. 3 Ex CW 80%; No. 3 CW 79%; No. 1 Ex CW 78%; No. 1 feed 78%; No. 2 feed 77%; No. 3 Ex feed 77%; mixed feed 77.

Bareley—No. 1 and 2 CW 8 row 14%; No. 3 CW 7 row 13%; No. 1 feed 14%; No. 2 feed 14%; No. 3 feed 13%; No. 3 mixed grain 13%; No. 2 CW yellow 14%; No. 3 CW yellow 14%.

### Livestock

EDMONTON, Oct. 28.—Total receipts: cattle 49, calves 214, hogs 1,114, sheep 247.

Friday's cattle market was slow

under liberal receipts plus about 150 unused cattle carried over from

Thursday. The local stock car situation is serious today with only

16 cattle available and not many in sight for tomorrow. Farmers and shippers are advised to

hold back cattle. The railroads are able to move cattle.

Morning sales were steady about

although local packer demand con-

tinued restricted with buyers quies-

cent in the market. The railroads

are able to move cattle.

Good steers were priced from

17.00-18.00 with the bulk of sales

fair to medium from 13.00-16.00.

Calves were steady with most sales of fair to medium

quality ranging from 12.00-14.00.

Cows were steady, with good

calves 12.00-13.00. Feeders were

up to 13.00.

Good and choice veal sales

were steady, 18.00-20.00. Hogs

were slightly lower than last

weekend.

British Driving In Tool Market

MONTRÉAL, Oct. 28.—(CP)—

Montreal industrialists told a meet-

ing of American engineers yester-

day that United States firms will

have to fight harder to retain tool

markets in this country against

British competition.

British engineers are on the

verage of a fierce drive for Cana-

dian orders. Victoria's Canadian

Foundry Co. Ltd. told the same

annual meeting of the American

Society of Tool Engineers.

British government stocks were

fractionally lower where changed

but there was no repetition of the

sharp declines of last week.

Good and choice veal sales

were steady, 18.00-20.00. Hogs

were slightly lower than last

weekend.

Design bonds remained steady

but there was occasional interest

in the rally.

Heavy delay in the receipt of

cabled advice from Johannesburg

caused a slight drop in the market

under the influence of London

business. Prices were generally

firm on good basis for selected

products and developments.

London Stocks

EDMONTON, Oct. 28.—(Reuter's)

A momentous week in the London

Stock Exchange ended on a quiet

note.

British government stocks were

fractionally lower where changed

but there was no repetition of the

sharp declines of last week.

Good and choice veal sales

were steady, 18.00-20.00. Hogs

were slightly lower than last

weekend.

Design bonds remained steady

but there was occasional interest

in the rally.

Heavy delay in the receipt of

cabled advice from Johannesburg

caused a slight drop in the market

under the influence of London

business. Prices were generally

firm on good basis for selected

products and developments.

EDMONTON, Oct. 28.—(CP)—

A spokesman for a Canadian culture,

with a view to recommending the

final B.C. session of the Royal Com-

mmission of Enquiry on the

status of the arts in Canada

under the chairmanship of the

Rev. H. Vincent Massey, the com-

mission will bear 10 briefs on

the arts, a special study of

the arts for musical functions

and for instructional classes, with

provision for housing permanent

and temporary exhibits, a study of

the arts, a study of the arts in

the country, a study of the

## New Eye Sees Color Invisible to Humans

Valuable in Studying Cancer Cells  
Which Scientists Now Must Stain

By Paul F. Ellis  
British United Press Staff Correspondent

**NEW YORK** (UPI)—A new "magic eye" to help in cancer research was demonstrated today for the first time at the annual meeting of the American Cancer Society.

This new eye is a lens that for the first time makes it practicable to take sharp, high-magnification photographs of living tissues in the invisible ultraviolet light.

The new process is so simple it is already being used in some research laboratories.

The new lens is the creation of David S. Grey, optics expert of the research laboratories of Polaroid Corp., Cambridge, Mass., who was assigned to it by the office of naval research of the U.S. Navy.

### TISSUES COLOR

The Cancer Society is announcing the new development said:

"The lens can bring to sharp focus, at a single setting, light of all wavelengths, from the visible to the lengths. Light rays too short to be seen by the human eye are brought right through the visible wave length so that the eye is naturally 'tuned' in."

The new lens enables cancer re-

search scientists to observe human tissues in color which heretofore have been seen only as black and white.

Such a development is significant because color as it pertains to normal tissue or cancerous tissues can be an important diagnostic factor.

With the new lens cancer re-

searchers will be able to examine completely colorless biological tis-

sues in the full colors they would

normally be able to pick up colors in the invisible ultraviolet and infra-red rays. In those two fields color from living tissues can be de-

tected.

In the past, the human eye has

through a straining process

to determine whether it was can-

cerous. The new development

makes a shortcut and permits the

eye to see the same as seen by the

"invisible" colors of certain types

of human tissues.

## North Port Hamstrung Says Route Official

**SASKATOON**, Oct. 28.—(CP)—The port of Churchill, potentially a 25,000,000-bushel-a-year bread basket for the United Kingdom and Europe, is being hamstrung by railroad difficulties and the federal trade department, Frank Ellison, secretary of the Hudson Bay Route Association, said last night.

Recently released from the official censure of the northern port's 66-day session, Mr. Ellison said cargo handlings were "infinitely smaller" than its capacity.

Sixteen ships handled 5,500,000 bushels of wheat. He estimated the port's handling capacity at 25,000,000 and said 16,000,000 is the minimum quantity shipment on which it can operate.

Mr. Ellison, a long-time advocate of the northern route to world markets, said the Canadian Wheat Board and the Hudson Bay Railway were the poor showing.

### SPRING NEEDS

Two million bushels must be ready at Churchill for the port's spring opening. About 5,000,000 must be ready at the government elevator at Saskatoon and other ports of needful country ports. Instead of 16, the board has 50,000,000 bushels accumulation storage at Fort William.

The U.S., he said, could "get" what it wants and can save up to \$2,250,000 by taking delivery from Churchill instead of Fort William or Vancouver. Churchill shipments are 10 cents a bushel cheaper, he said.

Imports from the U.K. were, however, too, as evidenced by the 250,000 bushels between tractor delivered at Calgary through Churchill and Montreal.

## 2 Overcome By Gas Fumes

**DAVIDSON**, Sask., Oct. 28.—(CP)—Two men were overcome by gas yesterday while trying to rescue Adolph Shmyko, a district farmer, from a 40-foot well.

Shmyko, 50, had been pulled up by Dr. N. A. Stewart, of Davidson, who was overcome by gas as he descended into the well. He revived sufficient strength to pull up Adolph Shmyko. Both were pulled to the surface.

Louis Shmyko, a brother of Adolph, who was pulled into the well with a bucket, but became unconscious and had to be brought up and taken to hospital.

Adolph Shmyko had been digging when he was overcome by the gas. He was in the well for more than an hour. He regained consciousness and was taken to hospital.

Davidson is 100 miles northwest of Regina.

### Sheep Strays, Action Follows

**CALGARY**, Oct. 28.—(CP)—A sheep which allegedly was negligently allowed to run loose and damage a laundry truck to the tune of \$1,000 in damages to the laundry in Cochrane Hill is the subject of a claim for \$1,000 filed yesterday in Superior Court against James Hausey, 26-year-old sheep held for "sheep's foot" theft.

Hausey, 26, was held for six hours for house-breaking and theft, three for common theft, and one for theft from the laundry. He was remanded until Tuesday.

Hausey was arrested Sunday by police in connection with a series of women's and men's clothing, jewelry and other goods found in his garage.

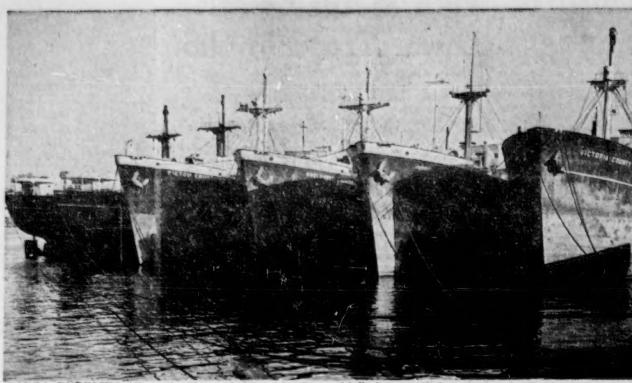

Ingenious new button for women's clothes was to be self-covered at home in a matter of minutes. It is made of a piece of rayon, suit or jacket, available soon from Connecticut firm. Said to be washable and rustproof.

## REFINED PETROLEUM PRODUCTS INCREASE

**OTTAWA**, Oct. 28.—(CP)—Production of refined petroleum products in May shot 22 per cent above May, 1948, production, the Bureau of Statistics reported yesterday.

Production was estimated at 8,713,000 barrels, compared with 16,200,000 last year. For the first five months of 1949, production was 32,427,000 barrels, compared with 29,111,600.

For the five-month period, 36,292,000 barrels of crude have been shipped to refineries as against 31,387,000 barrels in the same period last year.

**CARGO DERRICKS** idle and only a skeleton watch aboard, here are six of fleet of 12 Canadian ships "on the beach" at Halifax for lack of cargo. These six ships—all but one flying the Nova Scotia flag—are laid up

chiefly because their operation cost is about 25 per cent higher than those of other countries. Transport Minister Chevrier said government was giving immediate and urgent consideration to the matter.

—CP Photo.

## 25-30 Million Canada Population Possible

**MONTREAL**, Oct. 28.—(CP)—Canada could afford to support a population of between 25,000,000 and 30,000,000 persons, Howard T. Mitchell of Vancouver, publisher of the Western Business and Industry Magazine, said last night.

In an address at the opening dinner meeting of the season of the province of British Columbia, Mr. Mitchell said the Montreal board of trade, Mr. Mitchell said an increased population was desirable from both economic and social standpoints.

"Canada must export a large amount of its goods in order to remain prosperous," he said. "Water-power resources of rivers are equivalent to oil in the United States." "The discovery of large deposits of oil in Alberta has created such wealth, he said, that the province would probably be the first to benefit from a larger population.

Canada must import a large amount of food from the United States, he added. From a military point of view, he said, Canada could not defend itself from an aggressor with a population of only 13,000,000 spread across half a continent.

**BRICK-LAYING DEVICE** recently demonstrated in Montgomery, Alabama, is a mechanical device for laying bricks four times faster than the old-fashioned process and to enable workers to lay down 2,000 to 3,000 bricks in an eight-hour day.

# ENTIRELY NEW 1950 PHILCO 3-SPEED PHONOGRAPH, FULLY AUTOMATIC, FOR ALL RECORDS— ALL SIZES, ALL SPEEDS *NOW AVAILABLE!*

**THE NEWEST, THE GREATEST ADVANCE IN  
RADIO PHONOGRAPH ENJOYMENT!**

### LUXURIOUS NEW PHILCO COMBINATION

**FULLY AUTOMATIC for ALL RECORDS and for ALL  
3 SPEEDS... with a SINGLE TONE ARM and ONE SPINNLE**

You'll hardly believe your ears! The new Philco '727' is not only the newest record player, but the old standard records with the finest tone ever achieved in recorded music.

The new record player is designed

entirely by hand—each cabinet is

finished with a choice of selected

woods—solid mahogany, golden

maple, or African mahogany.

**FINEST TONAL  
REPRODUCTION  
EVER ACHIEVED**

New Philco Super-Tone Reproduction plays all records with a better tone than ever before. All records, including conventional 78s, are reproduced with just 1/2 of an ounce pressure. Preserves the low notes in perfect balance.

**PHILCO '727'**

Only 51.50

**ENJOY MORE THAN 5 HOURS  
OF CONTINUOUS MUSIC...**

**With the Greatest Tone Fidelity Ever Achieved in Record Reproduction  
PLAY ALL RECORDS, ALL SIZES, ALL 3 SPEEDS  
AUTOMATICALLY... BETTER THAN EVER BEFORE**

To meet the newest developments in the record industry, Philco announces another triumphant research achievement... without question, the finest record player ever produced! It plays automatic records, no long playing nor fine groove records as well as the old conventional records with only 1/2 ounce pressure from a single tone arm and one spindle.

**NEW for 1950**

**PHILCO CONSOLE  
COMBINATION  
with  
amazing 3-speed  
Record Changer...  
Glorious Tone—A New  
High in Quality at  
Modest Price!**

**PHILCO '711'.** Compare this deluxe combination feature for feature: its glorious tone—see its exquisite Georgian mahogany cabinet. You'll agree it's the key of the year! New Philco Super-Tone feather-weight reproducer—new Philco all-record, all automatic, record changer—6 Philco tubes—3 I.E. transformers—Dynamic speaker—generous enclosed record space. Only 309.50

**NEW for 1950**

**HERE'S RICH BEAUTY  
OF DESIGN AND  
THE NEWEST PHILCO  
DEVELOPMENTS!**

**Sensational Value in a  
Luxury Console!**

**PHILCO '715'.** Never before so many valuable "plus" features in a record console in the field! This all-in-one unit, in all sizes, all speeds automatically—more than 5 hours of continuous record storage space enclosed behind handsome panel. Only 269.50
